

# Majors and Minors (Academic Programs)

The majors and minors listed below are described in the pages that follow. Most of these programs also offer a minor and there are seven minors in programs for which there is no major.

Students may not earn both a major and a minor in the same academic field.

Students interested in majors not listed here or who are interested in designing their own major, may explore Individualized Major (<http://catalog.principiacollege.edu/majors-minors/individualized-majors>) options.

## Interdisciplinary Cooperation

Because of the interdisciplinary nature of some of our programs, faculty from one discipline will sometimes teach in another area because of special expertise or particular focus in a specific course. Faculty will be listed in this catalog under the academic programs in which they regularly teach.
