

Majors and Minors (Academic Programs)

The majors and minors listed below are described in the pages that follow. Most major programs also offer a minor. Additionally, stand-alone minors not connected to a major are listed below. There are also certificates available in French and Spanish. Students interested in majors not listed here or who are interested in designing their own major or minor may explore Individualized Majors and Minors (<http://catalog.principiacollege.edu/majors-minors/individualized-majors/>) options.

Students may not earn more than one major and/or minor in the same academic field. If students complete multiple majors, they must complete a separate capstone or culminating experience for each major where one is required.

Because of the interdisciplinary nature of some of our programs, faculty from one discipline will sometimes teach in another area because of special expertise or particular focus in a specific course.

Bachelor of Arts Majors

Art: Visual Arts

Business Administration

Creative Writing

Digital Media and Journalism

Economics

Educational Studies

Global Studies

History

Music

Performing Arts
